DETAILED ACTION

1. The amendment filed 4/4/07 has been entered.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Downes (US Patent No. 6,029,980).

Regarding claim 1, the Downes reference discloses a reciprocating seal (12) provided in an annular space formed between a shaft and a housing (Col. 3, Lines 21-23), which move relatively to each other in a direction of the shaft (Col. 3, Line 66 - Col. 4, Line 4), said reciprocating seal comprising

a seal lip (10) brought into sliding contact with a surface of the shaft (Col. 3, Lines 53-65),

the seal lip having a two-step lip structure (Fig. 2) including a first step (e.g. 10) and a second step (e.g. 14).

a plurality of protrusions (38) extending in a direction parallel to the shaft, said plurality of protrusions being formed on a surface of the second step (Fig. 2). Note that the plurality of protrusions extend radially parallel to the shaft in the Downes reference.

Application/Control Number: 10/531,443

Art Unit: 3673

Response to Arguments

3. Applicant's arguments filed 4/4/07 have been fully considered but they are not persuasive.

With regards to the applicant's argument of the protrusions not being parallel to the shaft of the Downes reference, the argument is not persuasive because the protrusions are radially parallel to the shaft.

Conclusion

4. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gilbert Y. Lee whose telephone number is 571-272-5894. The examiner can normally be reached on 8:00 - 4:30, M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Patricia L. Engle can be reached on (571)272-6660. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
